

Special Issue:

STELLAR POPULATIONS

Reprinted and updated reviews from
 'The 164th Symposium of the International Astronomical Union',
 held in The Hague, The Netherlands, August 15-19, 1994

Guest Editors:

P.C. VAN DER KRUIT and G. GILMORE

Preface	vii-viii
Preface to the original publication	ix-xv

HISTORY OF THE CONCEPT OF STELLAR POPULATIONS

O. GINGERICH / Report on the Progress in Stellar Evolution to 1950	3-21
D.E. OSTERBROCK / Walter Baade's Discovery of the Two Stellar Populations	23-35
N.G. ROMAN / The Discovery of the Chemical Composition - Kinematics Connection in the 1950's	37-44
A. BLAAUW / Stellar Evolution and the Population Concept after 1950; The Vatican Conference	45-54

GLOBULAR CLUSTER SYSTEMS

J.E. HESSER / The Galactic Globular Cluster System	57-71
F. FUSI PECCI and G. CLEMENTINI / The Stellar Population of a Typical Globular Cluster	73-82
T.D. KINMAN / Stars in the Galactic Halo	83-93
W.E. HARRIS / Globular Cluster Systems in Other Galaxies	95-105

OPEN CLUSTERS AND THE GALACTIC DISK

G. GILMORE / Evolution of the Galactic Halo and Disk	109-117
P.E. NISSEN / Age and Metallicity Distributions among Galactic Disk Stars	119-128
K.C. FREEMAN / Early-Type Stars	129-138
F.J. LOCKMAN / High Velocity Clouds in the Galaxy	139-143
R.F.G. WYSE / Chemical Evolution of the Galactic Disk and Bulge	145-166

STELLAR POPULATIONS IN LOCAL GROUP GALAXIES

M.W. FEAST / Stellar Populations in the Magellanic Clouds	169-180
---	---------

W.L. FREEDMAN / M31 and Companions: A Key to Baade's Stellar Populations Then and Now	181-191
A. SAHA / The Stellar Populations in Local Group Dwarf Galaxies	193-199
E.W. OLSZEWSKI / Star Clusters in Local Group Galaxies	201-213

DARK MATTER IN GALAXIES

K. KUIJKEN / Dark Matter in the Milky Way	217-226
P.C. VAN DER KRUIT / Dark Matter in Spiral Galaxies	227-238
P.T. DE ZEEUW / Central Black Holes and Dark Halos in Elliptical Galaxies	239-249
C.R. CANIZARES / Dark Matter in Clusters of Galaxies	251-260

STELLAR POPULATIONS IN ELLIPTICAL GALAXIES

H.G. FERGUSON / The UV Upturn in Elliptical Galaxies	263-272
S.M. FABER, S.C. TRAGER, J.J. GONZALEZ and G. WORTHEY / The Stellar Ages of Elliptical Galaxies	273-281
R. BENDER and A. PAQUET / Stellar Populations in SO Galaxies	283-292
M. FRANX / Measuring the Evolution of the M/L Ratio from the Fundamental Plane	293-298
F. SCHWEIZER / Effects of Late Mergers	299-307
J.R. LUCEY / Environmental Effects in the Stellar Populations of Elliptical Galaxies	309-316

GALAXIES AT LARGE REDSHIFTS

R.S. ELLIS / The Morphological Evolution for Field Galaxies	319-328
R.W. O'CONNELL / Stellar Populations at Large Redshifts	329-342
J.P. GARDNER / Galaxy Evolution from Deep Galaxy Counts	343-351

CLASSIFICATION SCHEMES OF STELLAR POPULATIONS

S.D.M. WHITE / Formation Models of Galaxies	355
A. RENZINI / Stellar Dating and Formation of Galactic Spheroids	357-372
I.R. KING / Panel Discussion on the Classification and Terminology of Stellar Populations	373-384
J. MOULD / Conference Summary	385-391
Index	393-398
